

# North Dorset Turbos Pricing Policy

Version 1, January 2009

North Dorset Turbos will at all times operate a pricing scheme which discounts the cost of membership for a family of four or more children.

In the case of genuine hardship, where existing members are unable to pay their membership renewal, parents are encouraged to approach the Management Committee in writing, requesting that their membership be reduced or waived.

The Management Committee will consider each such request and respond in writing to the parent or guardian.

In all cases the request and subsequent decision will remain strictly confidential.
